EDUCATION

Thapar Institute of Engineering and Technology (TIET) <i>BE in Computer Science Engineering; CGPA: 8.1</i>	Patiala, Punjab, India 2024-2027
Thapar Polytechnic College <i>Diploma in Computer Science; Aggregate: 84%</i>	Patiala, Punjab, India 2022-2024
Kendriya Vidyalaya AAI Rangpuri <i>CBSE (Class XII); Aggregate: 88%</i>	New Delhi, India 2020-2022
Deep Public School <i>CBSE (Class X); Aggregate: 95%</i>	New Delhi, India 2008-2020

EXPERIENCE

Project Intern <i>Thapar Institute of Engineering and Technology BIS Funded Research Project – Internship</i> - Designed and deployed a scalable online assessment platform using AWS and Cloudways for Confidence-Based Learning (CBL) based educational research. - Engineered modules for secure authentication, timed assessments, confidence-aware scoring, response logging, and browser focus monitoring to facilitate reliable student data collection. - Supporting the development of an educational AI system by collecting high-quality assessment data that will be used to train and evaluate predictive ML/DL models for student knowledge and confidence analysis.	May'26 - Present
Research Intern <i>TIET-UQ Center of Excellence Data Science and Artificial Intelligence – Internship</i> - Worked on the AI Chatbot project aimed at improving resilience in individuals recovering from drug addiction. - Collaborated with Thapar Institute of Engineering & Technology (TIET) and The University of Queensland (UQ) on this groundbreaking project.	July'25 - Dec'25

SKILLS

Programming Languages: Python, C/C++, SQL, JS, HTML/CSS.
Libraries and Frameworks: Tensorflow, Pytorch, OpenCV, NumPy, Pandas, Scikit-learn, Flask, Streamlit.
Tools & Technologies: Git, Github, MySQL, MediaPipe
Core Concepts: Data Structures & Algorithms, Object Oriented Programming, Operating System, Database Management System, Computer Networks, Machine Learning.

PROJECTS

SmartDeskAI – AI-powered Ticket Automation System — Git Technologies Used: Python, NLP, Streamlit, Automation Workflows, Machine Learning. - Developed an AI-powered ticket automation system featuring confidence-based decision making and human-in-the-loop validation for enterprise support workflows; recognized as a winning solution at the Atos Hackathon Challenge - Srijan 2026.	Mar'26 -April'26
Alzheimer's Disease Risk Prediction — Live Demo Technologies Used: Python, Streamlit, scikit-learn, pandas, FPDF. - Developed a machine learning-based web application to estimate dementia risk using patient demographics, cognitive scores (MMSE), and MRI-derived brain metrics.	Oct'25 - Nov'25

CERTIFICATES / ACHIEVEMENTS

• McKinsey Forward Program 2026	-	Certificate
• Summer Analytics 2025 by IIT Guwahati	-	Certificate
• Career Essentials in Generative AI by Microsoft and LinkedIn	-	Certificate
• Summer Training on Python Programming	-	Certificate
• First Position in Computer Science Branch	-	Certificate
• Merit Scholarship for Academic Excellence
